EDUCATION

FISK UNIVERSITY

Bachelor of Science in Computer Science (Honors); **GPA: 4.0/4.0.**

Nashville, TN

Expected: May 2023

- **Relevant Coursework:** Data Structures & Algorithms, Machine Learning & Math Modeling, Operating Systems, Android Development, Discrete Mathematics, Theory of Computation, Computer Organization & Architecture, Linear Algebra, Calculus I & II, Database Management, Programming Languages.
- **Technical Skills:** **Python** (Highly Proficient), **Kusto** (Highly Proficient), **Java** (Proficient), **HTML5/CSS** (Proficient), Git, Figma.
- **Honors:** W.E.B. Du Bois Honors, Erastus Milo Cravath Presidential Scholarship (**\$128,000**), [NFL's Battle of the Brains Champion](#) (**\$85,000 and NFL Draft Experienceship**), Oracle NetSuite Case Competition (**1st Place**), BE-Smart Hack (**HP & Nvidia Awards**), Microsoft PM HBCU Hack (**3rd Place**), Summit Partners Case Competition (**3rd Place**), and McKinsey Diversity Leadership Scholar.

EXPERIENCE

MICROSOFT CORPORATION

Program Manager Intern

Redmond, WA

May 2022 – August 2022

- Delivered a fully functional feature to equip the **Xbox Game Pass** business with the ability to modify existing products, measure business performance, and build customer friendly policy.
- Built new subscriptions for internal testing with full hierarchy and made improvements to the subscription ingestion process.
- Developed & implemented new design to improve customer experience at purchase time for backorder (future lots) physical goods, with an opportunity of saving **thousands of dollars** in customer support calls.

MICROSOFT CORPORATION

Software Engineer and Program Manager Intern

Remote

May 2021 – August 2021

- Designed and built extensible anomaly detection models and alert system using **Kusto** and **Geneva** to proactively diagnose customer dissatisfaction patterns thus reducing revenue loss, improving customer gratification, and maintaining Microsoft's brand value.
- Developed intricate visualization of daily trends in several consumer subscription metrics and across feature vectors via **Power BI**.
- Extended admin tools to fix identified customer issues using frontend **Geneva Actions (C#)** code and backend code (**C#**) to query the database and Q-table for the checkpoints.

FROEDTERT HEALTH

Information Technology Intern

Milwaukee, WI

June 2020 – September 2020

- Managed multi-site IT network and functionality using **Active Directory** and **System Center Configuration Manager**, utilized **Software Center** and **Citrix** for software implementations, deployed and tracked assets, and executed batch programs in **PowerShell**.
- Provided systems support such as installation and repairs of computer hardware and diagnoses software issues with the aid of **Windows Remote Desktop** for over **20000** corporate hardware and industry standard software across nearly **20** locations.

PROJECTS

[AI Fitness Trainer](#) | Python, Mediapipe, CV2, NumPy, React, JavaScript, Django

- Build an **AI Fitness trainer** to help user achieve fitness goals and ensure exercises are performed correctly embedded with storage and recommender systems for understanding client goals and developing a fitness routine plus an **AI virtual mouse** for no-touch operation.
- Utilize **Python, CV2, Numpy & Mediapipe** for AI model (including pose detection) and **React & Django** for the webapp.

[Travel Buddy](#) | React Native, JavaScript, Python, Django Scipy.spatial, Numpy, CV2, Imutils

- Worked in a team of **5** to build a virtual assistant that empowers travelers to achieve a faster boarding process by eliminating any uncertainty surrounding the boarding process through an instructional guide.
- Developed the hybrid mobile app using **React Native (JavaScript)** for frontend and **Django (Python)** for backend.
- Implemented service that allows travelers scan bags and auto-classify them as carry-ons or checked bags using **CV2, Scipy, & Imutils**.

LEADERSHIP & ACTIVITIES

COMPUTER SCIENCE CLUB AT FISK UNIVERSITY

President

Nashville, TN

November 2021 - Present

- Direct a team of visionary leaders aimed at providing guidance to existing tech students and advocating for tech literacy.
- Organize social and academic discussions for over **100** students including but not limited to interview strategies and careers in tech.

FISK UNIVERSITY

Teaching Assistant

Nashville, TN

August 2021 - Present

- Introduce **54** freshmen to computer science comprising basic coding, debugging, data structures, and working with large codebases.
- Counsel freshmen on proper career placement to gain clarity on merging their interests plus developing their skills and exposure.
